

NEJAH ONLINE QURAN & ISLAMIC CENTER

Software Requirements Specification (SRS)

Enterprise Quran Learning & Live Session Management Platform

1. INTRODUCTION

The NEJAH Online Quran & Islamic Center System is a modern enterprise-level web platform designed to manage online Quran and Islamic education operations. The platform shall support student management, teacher management, Quran memorization tracking, live class management, attendance monitoring, communication, reporting, notifications, and Zoom video integration.

The platform is intended to provide a professional, scalable, secure, and user-friendly experience for administrators, teachers, students, and parents.

2. SYSTEM OBJECTIVES

The system objectives include:

- Digitize online Quran school operations
- Improve teacher-student management
- Automate online class sessions
- Track Quran memorization progress
- Improve communication between users
- Provide professional attendance and reporting systems
- Support remote Islamic education globally
- Integrate Zoom live meeting services
- Provide parent monitoring features
- Generate analytics and educational reports

3. USER ROLES

The system shall support the following roles:

- Super Admin
- Admin

- Teacher (Ustaz)
- Student
- Parent

Each role shall have role-based permissions and controlled system access.

4. AUTHENTICATION & USER MANAGEMENT

The system shall allow:

- User login (Admin, Teacher, Student, Parent)
- Secure authentication
- Role-based access control
- Password reset
- Profile management
- Change password
- Logout
- Session management
- Login activity tracking
- Multi-device login monitoring
- Email verification
- Secure JWT authentication
- Two-factor authentication (optional)

Admin can:

- Create users
- Edit users
- Delete users
- Assign roles
- Activate / deactivate accounts
- Reset user passwords
- Monitor user activity

5. STUDENT MANAGEMENT

Admin shall be able to:

- Add student
- Edit student
- Delete student
- Assign teacher
- Assign level
- Assign class schedule
- Activate / deactivate student
- Transfer student between teachers
- Archive student records
- Track student learning status

Student Profile includes:

- Full name
- Age
- Gender
- Parent information
- Level
- Assigned teacher
- Enrollment date
- Status
- Notes
- Country
- Timezone
- Learning goals
- Emergency contact

6. TEACHER MANAGEMENT

Admin shall:

- Add teacher
- Edit teacher
- Delete teacher
- Assign students
- Assign schedule
- Track performance
- Monitor attendance
- Monitor teaching sessions
- Manage teacher availability

Teacher profile includes:

- Name
- Qualification
- Experience
- Assigned students
- Availability
- Status
- Country
- Languages
- Specialization
- Teaching rating

7. LIVE CLASS SESSION MANAGEMENT

The system shall integrate with Zoom API for live online Quran classes.

Teacher shall:

- Start live session
- Generate Zoom meeting link automatically
- Schedule Zoom sessions

- Reschedule session
- Cancel session
- Mark session completed
- Add session notes

Student shall:

- Join live classes
- View upcoming sessions
- Receive meeting notifications
- View session history

System shall:

- Automatically create Zoom meetings
- Track session start time
- Track session end time
- Calculate total duration
- Track attendance automatically
- Detect missed sessions
- Store session history
- Save meeting links
- Save Zoom meeting IDs
- Store recording links
- Generate live session analytics

Session details include:

- Session ID
- Teacher
- Student
- Meeting link
- Start time
- End time

- Duration
- Attendance status
- Session notes
- Recording link

8. QURAN PROGRESS TRACKING

Teacher shall:

- Record memorization progress
- Record Surah
- Record Ayah
- Record Juz
- Add Tajweed notes
- Add mistakes
- Mark revision
- Add lesson notes
- Set memorization targets
- Evaluate pronunciation
- Evaluate fluency
- Evaluate Tajweed accuracy

System shall track:

- Memorized Surah
- Memorized Ayah
- Completed Juz
- Revision status
- Progress percentage
- Daily progress
- Weekly progress
- Revision cycles
- Weak memorization areas

- Tajweed evaluation scores
- Fluency scores

9. ATTENDANCE MANAGEMENT

Teacher shall:

- Mark student present
- Mark student absent
- Mark student late

System shall:

- Calculate attendance percentage
- Generate attendance report
- Show monthly attendance
- Notify parents for absence
- Track live session attendance
- Generate attendance analytics
- Detect repeated absences
- Generate attendance history

10. CLASS SCHEDULING

Admin / Teacher shall:

- Create class schedule
- Edit schedule
- Delete schedule
- Assign teacher
- Assign student
- Add meeting link
- Set recurring classes
- Manage timezone scheduling
- Reschedule classes

Schedule includes:

- Date
- Time
- Teacher
- Student
- Meeting link
- Timezone
- Recurring settings
- Session duration

11. HOMEWORK MANAGEMENT

Teacher shall:

- Assign homework
- Set due date
- Add instructions
- Upload attachments

Student shall:

- View homework
- Submit homework
- Upload files
- View feedback

Teacher shall:

- Review submission
- Add feedback
- Grade homework
- Track homework completion

12. AUDIO & VIDEO RECITATION SYSTEM

Student shall:

- Upload recitation audio
- Upload recitation video
- View video history
- View feedback history

Teacher shall:

- Listen to recitations
- Review videos
- Add corrections
- Rate performance
- Save feedback
- Add Tajweed corrections
- Evaluate fluency

System shall:

- Store recitation history
- Store audio/video files
- Generate recitation performance history

13. EXAM & EVALUATION

System shall support:

- Weekly test
- Monthly test
- Memorization test
- Tajweed test
- Oral evaluation
- Final examinations

Teacher shall:

- Enter marks
- Add comments
- Publish result
- Evaluate performance

System shall:

- Show performance
- Generate report
- Generate rankings
- Generate evaluation analytics

14. COMMUNICATION SYSTEM

System shall support:

- Teacher to Parent chat
- Teacher to Admin chat
- Parent to Admin chat
- Student to Teacher chat
- Announcements
- Notifications
- File sharing
- Voice notes

Users can:

- Send messages
- Receive messages
- View message history
- Receive read receipts
- Search messages

15. PARENT PORTAL

Parents shall:

- View child progress
- View attendance
- View teacher notes
- Listen to recitation
- View session recordings
- Chat with teacher
- Receive notifications
- View schedules
- View homework
- View exam results
- Monitor student performance

16. ADMIN DASHBOARD

Admin can view:

- Total students
- Total teachers
- Active classes
- Attendance summary
- Performance summary
- Recent activities
- Financial overview
- Active sessions
- Zoom session analytics
- Student engagement statistics

17. REPORTS & ANALYTICS

System shall generate:

- Student progress report
- Teacher performance report
- Attendance report
- Memorization report
- Monthly report
- Session analytics report
- Financial report
- Exam report

Reports can:

- Export PDF
- Export Excel
- Print reports

18. NOTIFICATION SYSTEM

System shall send:

- Class reminder
- Homework reminder
- Absence notification
- New message alert
- Exam notification
- Payment reminder
- Session reminder
- Zoom meeting reminder

Notification types:

- In-app notification
- Email notification

- WhatsApp notification
- SMS notification

19. ROLE-BASED ACCESS CONTROL

Super Admin:

- Full access

Admin:

- Manage users
- Manage system
- Manage schedules
- Manage reports

Teacher:

- Manage students
- Record progress
- Conduct live classes
- Manage homework

Student:

- View lessons
- Submit recitation
- Attend live sessions
- View progress

Parent:

- Monitor student
- View reports
- Communicate with teachers

20. FINANCE & PAYMENT MANAGEMENT

Admin shall:

- Create fee structures
- Generate invoices
- Track payments
- Record expenses
- Generate financial reports

Parent shall:

- View invoices
- View payment history
- Pay fees online

System shall:

- Generate receipts
- Send payment reminders
- Track overdue payments

21. SESSION RECORDINGS MANAGEMENT

System shall:

- Store session recordings
- Allow playback
- Save Zoom recording links
- Archive recordings
- Track recording history

Teacher shall:

- Upload recordings
- Share recordings

Parents shall:

- View recordings
- Review student sessions

22. FILE & MEDIA MANAGEMENT

Users shall:

- Upload files
- Download files
- Preview files

System shall support:

- Audio files
- Video files
- PDF files
- Images
- Homework attachments
- Session recordings

23. AUDIT LOGS & SYSTEM MONITORING

System shall track:

- Login history
- User activities
- Attendance updates
- Progress updates
- Deleted records
- Session activities
- Payment activities
- File uploads

24. SECURITY & DATA PROTECTION

System shall:

- Encrypt passwords
- Protect user data
- Prevent unauthorized access
- Use secure authentication
- Support session timeout
- Support data backup
- Support disaster recovery
- Maintain audit logs
- Secure Zoom integration

25. CALENDAR & EVENT MANAGEMENT

System shall:

- Display class calendar
- Display exams
- Display holidays
- Display upcoming sessions
- Support recurring schedules
- Support timezone conversion

26. THIRD-PARTY INTEGRATIONS

System shall integrate with:

- Zoom API
- Email services
- WhatsApp API
- SMS services
- Cloud storage
- Payment gateways

27. NON-FUNCTIONAL REQUIREMENTS

The system shall:

- Support responsive design
- Support desktop and mobile devices
- Provide high performance
- Support concurrent users
- Maintain high availability
- Provide secure data storage
- Support scalability
- Support maintainability
- Load quickly and efficiently

28. FUTURE ENHANCEMENTS

Future versions of the system may include:

- AI Tajweed analysis
- Speech recognition
- Mobile applications
- Multi-school support
- Advanced analytics
- Gamification system
- Student achievement badges
- Learning streak tracking

29. CONCLUSION

The NEJAH Online Quran & Islamic Center platform is intended to provide a professional enterprise-level Quran learning and management solution with advance
